MEMORANDUM FOR THE RECORD

SUBJECT: Conversation, 21 November 1978

The only item presented was the perspective on the long-range outlook in Africa done by [] and Bob Bowie with my making the introduction and conclusions. I think it went quite well. The remark was made at the end that this was the kind of long-range thinking that we needed to do more of. In view of the fact that Bill and Bob were there, I won't go into much more detail.
